When your wife and children say "Pa, may we go to the Keytesville Fair?" don't say "no, times are too hard," when you and all the members of your family can go every day to the fair for five dollars—only one dollar a day spent for amusement for the whole year for a wife and children who are worked and sold early and late through the entire season for you. Can you say "no"? Perhaps you will say "I am conscientiously opposed to fairs." Look into it; perhaps your prejudice rests on that five dollars you do not wish to spend, or the work you wish your boys to do. Shame on you; are you a man? Just look back a few years when you owned or hired negroes; you gave them money and all of Christmas week to frolic. Surely you will give your family fair work, and some money. Let them be happy when they can, and help the yellow fever sufferers of the terribly stricken south, as 25 per cent of the net proceeds of the entire Fair will be sent to them. Miss Phoebe Cousins, of St. Louis, the "queen of the rostrum" will deliver her popular lecture on "Co-operative Farming" on Wednesday, Oct. 9th, 24 day of the fair. Come and hear the best lecture on the platform to-day, and displaying as she does wit, eloquence, oratory, intellect and attainments of a high order.
Wm. E. HILL, President.

From all parts of the country reports come of the immense sales and increasing demand for that deservingly popular Sewing Machine, The Old Reliable "Standard," the price of which the proprietors wisely reduced to \$20, including all the attachments, and at once secured for them a popularity among the people far beyond that ever yet attained by any other machine at any price, the consequence of which is, agents are leaving the old high priced machines, and seeking territory for the "Standard." Knowing from experience that with the best goods at the lowest price they can outsell all other Machines, where the superior quality and low price is made known. This splendid Machine combines all the improvements. Is far ahead of all others in beauty and durability of its work, ease of management, light running and certain of operation, is sensibly made upon principles, with positive working points all steel, and can be safely put down as the very perfection of a serviceable Sewing Machine, in every particular. It will outlast any machine, and at a price far below any other. It is thoroughly warranted for five years. Kept in order free of charge. And sent to any part of the country for examination by the customer before payment of the bill. We can predict equally as large a demand for them in this section as in others. Families desiring the best machine manufactured should write direct to the factory. And enterprising persons wishing to seize the chance should apply for so desirable an agency. See advertisement in another part of this paper. Address Standard Machine Co., Cor. Broadway and Clinton Place, New York, 27-28-8.

Keytesville Fair.
The eleventh annual fair at Keytesville, promises to be the most interesting exhibition of the kind ever held in the county. A short visit to the fair grounds will satisfy any one that nothing has been overlooked by Mr. Hill, in the general details of preparation to insure success to the enterprise as well as the convenience and pleasure of those who may attend the exhibition. We have not the space to notice all the improvements which have been made on the grounds this season, but we will say that the amphitheatre has been substantially repaired, the music stand has been repainted in the most picturesque style, and the fence around the small ring repaired and painted, a large number of new steel stalls built, another well dug in order to have an abundant supply of the genuine Murphy beverage. So there shall be no excuse, or occasion for the slightest intoxication. The half mile track has been put in excellent condition for the speed races, and the entire grounds, and fence inclosing the same, put in nice trim for the week's entertainment. No more pleasant place can be found in the county, away from business strife and trouble to spend a time with friends and acquaintances.
Quite a fine collection of animals and curiosities have been secured for the fair and will be on exhibition during the whole time. Stock from other fairs has been coming in for several days, and taking up their quarters on the grounds. If the weather is favorable during next week a grand gala season will be enjoyed by all fair-going, fun-loving folks.

A Remarkable Result.
It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy that has given complete satisfaction in severe cases of Lung Diseases. It is true that there are yet thousands of persons who are predisposed to Lung and Throat affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough &c., who have no personal knowledge of Boecher's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptive try just one bottle. Regular size 75 cents. Sold by all Druggists in America. 7-14
